If I were a parent I would want my child to come back as soon as possible and safe. So that what I think that they mean by that. ## WRITTEN ASSIGNMENTS

Embed GradeCam forms on lined paper for written work (i.e. short response, essays), and then simply bubble in student scores for easy scanning and automatic grade recording.

## BOOK REPORTS/PRESENTATIONS

Utilize rubrics through teacher-completed forms, while reading reports or listening to presentations, to score students achievement (i.e. research, presentation, comprehension, etc.) on a predetermined scale (i.e. ranging from "Poor" to "Excellent"), scan completed GradeCam forms to instantly capture and analyze data, and then automatically transfer grades into any electronic gradebook.

05.

## CREDIT/NO CREDIT

Place GradeCam forms anywhere (i.e. journal covers, homework folders) to quickly and easily allocate points (i.e. homework completion).

If a student completes the task/assignment/requirement, simply scan this form and the student instantly receives full credit for the assignment. If the form isn't scanned, the student does not receive points.

06.

## ORAL ASSESSMENTS

For quick, in-class formative assessments, ask students questions on the fly and have them bubble in their answers on reusable laminated forms. Once complete, walk around the room and scan forms with your phone or tablet for instant results.
